

New Courses at Sal 2018-2019

CTS

Environmental Stewardship 10

5 credits

Environmental Stewardship provides students the opportunity to develop an understanding of the social, economic and political significance of environmental issues. Topics covered will include Climate Change, Composting, Living with the Environment, Natural Resource Management, Consumerism and Conversation. Students will use what they have learned and will work together to design, build and implement a whole class capping project geared towards Environmental Sustainability.

Approximate Cost: \$25.00

Film & Media Art 15

5 Credits

Film & Media Art challenges students to engage in the study of film as art, as well as to embrace the technological and literary aspects of the medium. Students will examine both historical and contemporary films, and create short films of their own that integrate narrative, technical, and artistic elements.

Business of Baking 10

5 Credits

Want to learn how to bake? Have an entrepreneurial spirit? With a combined course in theory, as well as a hands-on approach –learn the ins and outs of baking and running your own bakery. This course is the perfect opportunity to create, test and sell your own baked delights. Learn to make irresistible treats such as muffins, biscuits, cakes, bagels, cookies and more, while you learn the basics of running your own business.

Master how to build yourself an empire with the Business of Baking.

Approximate Cost: \$50.00
