Student Information:

- **Your Future: Post-Secondary and Career Fair:** While we're limited in our ability to gather together in person, that doesn't mean we still can't bring together a collection of post-secondary colleges and universities as well as potential employers and associations to share valuable information about post-secondary education and career planning. This year, EIPS is taking Your Future virtual to continue sharing this important information with students and families.

Over the course of two evenings (November 24 & November 25), EIPS has planned a series of short Microsoft Teams meets with presenters from a variety of organizations and institutions. Students in grades 9-12 are welcome to join! The session schedule is posted on the EIPS [Website](#).

- **SHAD2021:** Shad Canada is a STEAM and entrepreneurship program for students in grades 10 and 11. The program attracts students with high aptitudes for risk taking, curiosity, excellence and resilience, and prepares them to take on social and economic challenges. The month-long, summer program includes a real-world design challenge that asks students to work on issues such as food security, water management and waste. SHAD2021 will take place July 5-30, 2021—both an in-person and online option will be available in 2021. The application deadline is December 7, 2020. There is a cost to register, but bursaries are available. <https://www.shad.ca/about-shad/shad-2021/>
